

EARLY-MID 80s (13mm thick)

Welcome to the best music you've never heard.

When music makes me feel like this, I know it's special.

Rock Radar is a semi-regular collection of my favorite new and emerging bands. A time capsule of music discovery. Something to enjoy for years to come. Something to share with my friends.

Enjoy, listen LOUD, and remember:
Rock's not dead, because you can't kill it.
